

# Getting Started: Strategic Community Planning

A strategic community plan (SCP) is essential for the long-term success of Texas communities. It's a flexible working tool that provides a yearly checklist of action items board members can take to improve the association. Get started on your SCP today!

See below a mini worksheet that shows how to rank daily operations of your community and plan where to go from there.

### Have a few action items?

We'd be happy to help you with those. [Reach out to us](#) any time, and we'll be in touch shortly.

*Note: This is not a complete SCP document; it's strictly an example for reference when planning for your own community.*
